The tee to go with your tote

TexoFibre Global is a Kolkata-based manufacturer and exporter. Alongside our jute, cotton and juco bags, we make basic t-shirts to your specification — so a promotional programme can source its tee and its tote from one supplier.

Our t-shirts come in four necklines, in premium cotton qualities and speciality fabrics from 150 to 260 GSM, and are decorated in house with eleven print and embroidery methods.

We supply promotional companies, packaging firms, wholesalers, importers, supermarkets and retail brands worldwide, with pricing quoted DDP to your delivery point.

40+ years Jute quality inspection & t-shirt manufacturing	5M units Annual capacity across tees & bags
100+ SKUs Customisable across bags & t-shirts	DDP pricing Quoted to your delivery point

100% cotton
Soft, breathable everyday cotton

Range 150–260 GSM

Tencel
Smooth, cool-feeling fibre with a natural drape

Range 150–260 GSM

Jacquard
Pattern knitted into the fabric itself

Range 150–260 GSM

Cotton lycra
Cotton with stretch for shape retention

Range 150–260 GSM

Cotton loop knit
Textured loop knit with a soft handle

Range 150–260 GSM

Cotton qualities

- **Combed** — short fibres combed out for a smoother yarn
- **Compact** — compact-spun yarn with less hairiness
- **Pima** — extra-long staple cotton, soft and strong

Fabric weight

- 150–260 GSM across the t-shirt range

Screen print

Ink pushed through a mesh stencil, for bold, durable artwork

DTF

Direct-to-film transfer for full-colour detail

UV DTF

UV-cured transfer with vivid, glossy colour

Puff

Ink that rises as it cures, for a raised feel

Sublimation

Dye transferred into the fabric for a soft finish

Embroidery

Stitched logos and marks with a raised texture

Also available

- **Discharge** — soft print that lifts the garment's base colour
- **High-density** — thick, sharp-edged raised ink
- **Reflective** — light-reflecting print for visibility
- **Foil** — metallic foil finish
- **Crackle** — cracked, worn-in effect

Requesting a quotation

Send us these six details and we will come back with a DDP price to your delivery point, along with lead time and sampling options. Minimum order quantities depend on the style, fabric and decoration chosen.

Style & neckline Basic tee plus your chosen neckline	Fabric & weight Cotton quality, fabric and GSM	Colour Garment colour or a reference sample
Size breakdown Quantity per size and per colour	Decoration Method, colours and print positions	Delivery Date required and port or door address

A note on specifications

Fabric weight is given in grams per square metre (GSM), within a 150–260 GSM range across our t-shirts. Sizes, colours and minimum order quantities are confirmed when we quote. Prices are quoted on application.

Let's build your tee

Bespoke service: you imagine it, we'll create it.
